React Developer

Front-End Developer with 2+ years of experience in building and optimizing responsive, modular, and scalable web applications. Proficient in React.js and Redux, with a solid understanding of modern JavaScript frameworks and web standards. Experienced in collaborating with cross-functional teams to develop and enhance UI components, optimize front-end performance, and craft intuitive user interfaces.

Work Experience

Tata Consultancy Services, Ahmedabad | Developer

June 2022 - Present

- Developed new UI components and optimized front-end performance, ensuring seamless user experience and high responsiveness.
- Collaborated with UI/UX designers and Frontend Architects to implement intuitive and modern features, enhancing user interactions and reducing loading times.
- Conducted code reviews and optimized front-end infrastructure, resulting in a 50% reduction in bug reports and improved user feedback.
- Integrated Redux for state management and optimized performance by refactoring components, reducing re-rendering and improving scalability.

Tools Used: React.js, Redux, Material-UI, Figma, Jira.

- Worked with Power BI dashboards to represent complex data insights, making it easier for stakeholders to understand key metrics and trends.

Tools Used: Power BI Service, DAX, SQL Servers

Tata Consultancy Services, Ahmedabad | Intern

Jan 2022 – April 2022

- Gained proficiency in serverless computing on the Microsoft Azure platform, integrating multiple services using Azure Logic Apps and improving workflow efficiency.
- Developed automated workflows and implemented data security using Azure Key Vault, contributing to the optimization of software development processes.

Tools Used: Azure Functions, Azure Logic Apps, Azure Key Vault.

CreArt Solutions, Ahmedabad | Intern

June 2021- July 2021

- Built and maintained dynamic web pages using PHP, HTML, CSS, and JavaScript, ensuring responsive design and seamless integration with backend databases.
- Developed CRUD operations to interact with MySQL databases, maintaining data integrity across the system.
- Integrated third-party APIs to extend functionality and improve user engagement.

Tools: PHP, MySQL, JavaScript.

Skills

Programming Languages & Frameworks: JavaScript (ES6+), React.js, Redux, TypeScript, HTML5, CSS3, Python, PHP, C

Tools & Technologies: Git, Microsoft Power BI, Azure, Figma, Material-UI, Jira.

Databases and Methodologies: MySQL, Object Oriented Programming, API Integration, Data Structures and Algorithms.

Testing & Debugging: Unit Testing, Integration Testing, End-to-End Testing, Debugging, Chrome DevTools.

Web Standards: Responsive Design, Modular Code, Progressive Rendering, Service Workers, SCSS, Browser Performance.

Projects

Personal Portfolio

June'24

- Built a fully responsive personal portfolio using React, showcasing skills and experiences in a user-friendly interface.
- Developed dynamic UI components such as a project showcase and contact forms, leveraging React's component-based architecture and MVC design patterns.
- Implemented a dark mode feature using React Hooks, improving user satisfaction and session duration.
- Deployed the site on GitHub Pages with continuous integration through Git version control.
